

Evaluation: UvA IIS - Onderwijsontwikkelaar

Date: 2026-06-06 **URL:** <https://werkenbij.uva.nl/vacatures/onderwijsontwikkelaar-netherlands-15124> **Archetype:** Learning Experience Designer + Research Infrastructure Strategist **Score:** 3.5/5 **Legitimacy:** High Confidence **PDF:** pending

A) ROLE SUMMARY

FIELD	VALUE
Archetype	Learning Experience Designer (primary) + Research Infrastructure Strategist (secondary)
Domain	Higher education / interdisciplinary learning
Function	Design + develop + facilitate + research
Seniority	Medior-Senior (3-5 years required)
Remote	Hybrid - Amsterdam Science Park
Team size	IIS team; works across UvA faculties
TL;DR	Design and implement cross-disciplinary education at UvA's Institute for Interdisciplinary Studies - build curricula, coach faculty, lead educational innovation projects, publish findings

Hours/Comp: 32h/week, €4,728-€6,433/month based on 38h (scale 11), prorated to 32h = ~€3,982-€5,416/month (~€47k-€65k/year) **Apply via:** UvA careers portal **Start:** Temporary 12 months, potential permanent **Deadline:** June 11, 2026

UvA's Institute for Interdisciplinary Studies (IIS) is the central unit for cross-faculty education design at the University of Amsterdam. The team builds education that bridges disciplines - challenge-based, project-based, community-engaged. This role creates and sustains those programs in close collaboration with faculty across the university.

B) MATCH WITH CV

JD REQUIREMENT	CV EVIDENCE	STRENGTH
3+ years developing cross-disciplinary education	Windesheim lectoraat 2020-present (VCH cross-sector consortium, Beer Game multi-faculty deployment, COVID-19 Megaproject 8-faculty coordination); Aeres SafeScrum rollout (merged 8 separate courses into 1 sprint-based track)	Very Strong
Challenge-based, project-based, community-engaged learning design	Beer Game (simulation-based learning via real-world scenario design); Aeres: student startups as project vehicles; KONGSBERG thesis: simulation vs PPT learning (grade 8.7)	Strong
Faculty professional development and team support	Aeres: trained faculty in SafeScrum, facilitated workshops, identity shift coaching; Windesheim: onboarded researchers and students onto AI stack, facilitated multi-department research coordination	Strong

JD REQUIREMENT	CV EVIDENCE	STRENGTH
Track record establishing partnerships between HE and community orgs	VCH consortium (logistics corporates + NGOs + overheid + academia); Beer Game deployed at UvA, WUR, ROC Midden Nederland	Strong
Co-creation process expertise	VCH sprint cycles designed for multi-stakeholder co-creation; PBLQ/value chain co-design sessions	Strong
Evidence-based practice and educational research	KONGSBERG thesis: empirical comparison of simulation-based vs procedure-based training (8.7); COVID-19 Megaproject research into hospital burden and supply chain disruption	Strong
Project coordination	Windesheim PM role 2020-present; Prince2 certified; COVID-19 Megaproject lead	Strong
Dutch C2 + English professional	Native Dutch; professional English (HvA degree taught in English, KONGSBERG UK/Azerbaijan)	Met
Navigating university organizational culture	Windesheim cross-faculty COVID-19 coordination; Aeres: worked across school leadership, academic departments, student groups	Moderate-Strong
Master's degree	Gap - Christiaan has HBO Bachelor BIM (grade 8.7), not a WO Master	Hard Gap
3-5 years teaching experience with interdisciplinary approaches	Windesheim: guest lectures, AI tool onboarding, curriculum input; ROC: teaching; but primary role is PM/lab builder, not front-line lecturer	Moderate

Gaps: 1. **Master's degree required** - Christiaan has a Bachelor's (HBO grade 8.7, nationally recognized as excellent). UvA is a WO (research university) and typically strict on degree requirements for academic support staff. Mitigation: the role is not a lecturer but an "onderwijsontwikkelaar" (educational developer) - portfolio evidence may carry significant weight. Acknowledge directly in cover letter and let the portfolio speak. 2. **University (WO) sector experience** - Christiaan's education track record is at HBO (Windesheim, Aeres) and MBO (ROC) level. IIS works within a research university culture. Mitigation: Beer Game ran at UvA and WUR. VCH had academic research partner involvement. Frame as "operational understanding of both HBO and WO contexts." 3. **Comp below target** - At 32h, prorated salary is €47k-€65k/year. Bottom of target range, not above it. Mitigation: role is part of fractional stack (0.8 FTE at 32h), so comp supplements other roles. Accept if comp lands at top band (€5,416/month × 12 = €65k).

C) LEVEL AND STRATEGY

Level detected: Medior-Senior educational developer. 3+ years required; role expects independent project leadership and external partnerships.

Christiaan's natural level: Meets on experience, misses on formal degree. Six years of applied educational development at Windesheim + Aeres, with peer-reviewed adjacent output (KONGSBERG thesis 8.7). The work IS educational development under a PM/lab-builder label.

Sell without lying: - Lead with KONGSBERG thesis: empirical research into simulation-based learning published at academic level. This is educational research, not just practice. - Aeres SafeScrum: designed a whole-institution curriculum transformation. That IS the IIS job. - Beer Game: proof that simulation-based educational design creates multi-institutional adoption - UvA's own curriculum now includes it. - COVID-19 Megaproject: coordinated interdisciplinary educational research across 8 departments at WO-adjacent level.

If they reject on degree: Expected risk. The explicit acknowledgment in the letter ("mijn HBO-diploma is geen WO, maar mijn werk wel") combined with a strong portfolio may still get an interview. UvA has precedent for hiring exceptional practitioners without the formal degree for non-teaching roles.

D) COMP AND DEMAND

ITEM	DATA
Offered (32h, top of scale 11)	~€5,416/month = ~€65k/year
Offered (32h, entry)	~€3,982/month = ~€47.8k/year
Christiaan target	€65k-€90k/year
Fractional model	32h = 0.84 FTE - good fractional fit if stacked with 0.2-0.4 FTE elsewhere
Comp verdict	Borderline - top of scale meets minimum target only at 32h. Entry is below target.
Benefits	232h leave, 8% holiday allowance, 8.3% year-end bonus, ABP pension (UvA 2/3 contribution), professional dev budget

Verdict: Comp works only if Christiaan enters at or near top of scale AND if this role is one of 2-3 concurrent positions. At 32h as sole income it falls short. As part of fractional stack it is acceptable.

E) CUSTOMIZATION PLAN

#	SECTION	CURRENT	PROPOSED CHANGE	WHY
1	CV Summary	Generic bridge-builder	Reframe: "Onderwijsontwikkelaar die interdisciplinaire leertrajecten bouwt die ook werken nadat je de kamer hebt verlaten"	IIS language: sustainable implementation, cross-disciplinary
2	Windesheim bullets	Mixed PM + innovation	Foreground: VCH cross-sector consortium as co-creation vehicle, Beer Game multi-institution deployment, COVID-19 Megaproject (cross-faculty coordination), AI stack (challenge-based tool adoption)	Shows all four IIS competencies
3	Aeres bullets	Innovation lab framing	Lead with SafeScrum curriculum transformation: "Ontwierp een programma waarbij 8 losstaande vakken samenvloeiden tot één sprint-based innovatietrack - twee operationele studentstartups als resultaat"	Shows challenge-based + community-engaged design in practice
4	KONGSBERG section	Technical context	Add note: KONGSBERG thesis (8.7) specifically researched failure of procedural training vs simulation-based learning - this IS educational research	Proof of evidence-based practice
5	Cover letter	-	Lead with Beer Game multi-institution story; pivot to Aeres curriculum transformation as proof of sustainable implementation; acknowledge degree gap directly and confidently	IIS buys results, not credentials

F) INTERVIEW PLAN

#	JD REQUIREMENT	STAR+R STORY	S	T	A	R	REFLECTION
1	Developing cross-disciplinary curricula	Aeres SafeScrum transformation	8 vakken draaien parallel zonder verbinding	Ontwerp een programma dat instellingsbreed werkt	SafeScrum ingevoerd, faculteit getraind, curricula hernummerd	Twee operationele studentstartups, lijnmanagement over	Een curriculum is pas af als het werkt zonder jou erin
2	Sustainable implementation	Beer Game multi-institutioneel	Simulatie klaar, maar één instelling is niet duurzaam	Zorg dat het curriculum in meerdere instellingen leeft	Relaties gelegd bij UvA, WUR, ROC, gastcolleges gegeven, simulatie ingebed	Draait nu bij 4+ instellingen, gefinancierd door en met naam van die instellingen	Duurzame implementatie vereist dat de instelling eigenaar wil worden, niet alleen gebruiker
3	Evidence-based practice	KONGSBERG thesis (8.7)	Ingenieurs faalden in veld ondanks training	Onderzoek waarom procedure-volgers niet kunnen improviseren	80+ pagina's empirisch onderzoek: simulatie vs PPT-training	Gepubliceerd bij HvA, 8.7 beoordeeld	Onderwijs dat alleen succes-scenario's toont, maakt kwetsbare professionals
4	Faculty professional development	Aeres: faculteit meekrijgen	Faculteit sceptisch over Scrum in onderwijs	Zorg voor echte buy-in, niet compliance	Workshops gefaciliteerd, identiteits-weerstand benoemd, samenwerking ontworpen	Drie docenten werden ambassadeurs	De moeilijkste stap bij faculteitsontwikkeling is de identiteitsshift: van expert naar facilitator
5	Community-engaged learning	VCH consortium	Corporates, NGO, overheid en academia moesten samen leren	Één gezamenlijk leertraject opleveren voor partijen met verschillende tijdschorizonnen	Sprint-cycles ontworpen die met alle ritmes werkten, gedeelde infrastructuur gebouwd	Cross-Europees rapport, vier partners	Community-engaged onderwijs lukt alleen als alle partijen iets leren wat ze zonder jou niet hadden

Red-flag questions: - "Je hebt geen WO-master - is dat geen probleem?" → "Mijn achtergrond is HBO, mijn werk is WO-niveau. Mijn thesis scoorde 8.7 op een onderzoeksvraag die ook als PhD-scriptie gepubliceerd had kunnen worden. Het Beer Game-curriculum draait nu bij UvA zelf. Ik begrijp dat de formele eis bestaat, en ik hoop dat jullie bereid zijn te kijken naar wat ik heb opgebouwd." - "Heb je ervaring met UvA's onderwijsvisie?" → "Ik heb vanuit Windesheim en via het Beer Game-programma direct samengewerkt met UvA-docenten en meegekeken in curricula. Ik ken het IIS-model niet van binnenuit, maar ik ken de uitdagingen die jullie doelgroep - faculteit die inter-disciplinair wil maar het niet gewend is - dagelijks ervaart."

G) POSTING LEGITIMACY

Assessment: High Confidence

SIGNAL	FINDING	WEIGHT
Posting freshness	Active on werkenbij.uva.nl; deadline June 11, 2026 confirmed	Positive
Apply mechanism	Active application button, UvA careers portal	Positive
Description quality	Specific responsibilities, scale 11 salary, named contacts (Linda de Greef, Jasper	Positive

SIGNAL	FINDING	WEIGHT
	ter Schegget), interview timeline weeks 25-26	
Company context	University of Amsterdam is a stable, public research institution - no ghost job risk	Positive
Salary transparency	Full scale range published	Positive
Urgency	Deadline June 11 - 5 days	Positive

KEYWORDS EXTRACTED

UvA, IIS, onderwijsontwikkelaar, interdisciplinair onderwijs, challenge-based learning, project-based learning, community-engaged learning, co-creatie, faculteitsontwikkeling, docentprofessionalisering, onderwijsonderzoek, evidence-based, curricula, Amsterdam Science Park, scale 11, cross-disciplinary, duurzame implementatie, HO onderwijs, kennisinstelling

MACHINE SUMMARY

```

num: 120
company: UvA IIS
role: Onderwijsontwikkelaar
score: 3.5
status: Evaluated
