

Evaluation: PBLQ - Adviseur digitale samenleving

Date: 2026-06-06 **URL:** <https://pblq.nl/adviseur/> **Archetype:** Research Infrastructure Strategist + AI Transformation Lead **Score:** 3.7/5 **Legitimacy:** High Confidence **PDF:** pending

A) ROLE SUMMARY

FIELD	VALUE
Archetype	Digital Society Advisor (public sector digitalization)
Domain	Public sector / digital policy / information management
Function	Advise + lead projects independently
Seniority	Medior-Senior
Remote	Hybrid - Den Haag
Team size	40 colleagues, boutique advisory firm
TL;DR	Be PBLQ's expert on info management, digitalization and innovation for public sector clients (government, municipalities, executing bodies, healthcare, defense)

Hours/Comp: Not specified; market-rate for boutique advisory (estimated €4k-7k/mo) **Apply via:** werkenbij@pblq.nl (CV + motivation) **Contact:** Frank van IJzerloo, F.van.IJzerloo@pblq.nl

PBLQ advises public sector organizations on the impact of digitalization. 40 colleagues; independent, boutique advisory. Domains: physical environment/energy transition, healthcare, security/defense. Projects have strategic importance for clients on problems never solved before.

B) MATCH WITH CV

JD REQUIREMENT	CV EVIDENCE	STRENGTH
Info management, innovation, digitalization in public sector	KBenP Adviseur Digitale Overheid (applied), NCOD Medior Adviseur, W3C CCG digital identity, COTIT operational redesign, Windesheim COVID-19 (government-funded)	Strong
Lead projects independently at client sites	Windesheim PM 2020-present, Aeres Lab Manager, COTIT operational transition, Social Chicken freelance PM portfolio	Strong
Build client network	VCH cross-sector consortium, Beer Game multi-institutional, Meerschap new contracts from own initiative	Strong
Strategic advice on unsolved problems	KONGSBERG Azerbaijan (contract-based problem solving), COVID-19 Mega Project (8 departments, novel territory)	Strong
Domains: energy transition / healthcare / security	VCH: CSRD/EUDR supply chain compliance (adjacent to energy transition); digital identity/MiCA; COVID-19 (healthcare supply chain)	Moderate
Intellectual rigour	KONGSBERG thesis 8.7, evidence-based practice	Strong

Gaps: 1. **No direct government ministry track record** - Christiaan's public sector is adjacent (Windesheim = government-funded, not government). Mitigation: KBenP and NCOD applications in progress; W3C CCG shows policy-level participation. 2. **Den Haag location** - Baarn to Den Haag = ~50min by train. Workable hybrid. 3. **Boutique advisory identity** - PBLQ is a small specialist firm. Christiaan has more lab-builder than consultant identity. Mitigation: present as strategic advisor who builds things, not just reports.

C) LEVEL AND STRATEGY

Level: Medior-senior digital advisor. Independent client lead from Day 1.

Sell: Lead with W3C digital identity work + KBenP/NCOD as positioning in public digital advisory. VCH consortium as proof of strategic stakeholder management. COVID-19 Megaproject as novel-problem experience.

D) COMP AND DEMAND

ITEM	DATA
Estimated range	€4,500-€7,000/month (boutique advisory, NL market)
Target	€65k-€90k/year
Verdict	Likely within target if entering medior-senior band

E) CUSTOMIZATION PLAN

Summary: "Digitaal adviseur voor de publieke sector - vertaalt complexe IT- en beleidsvraagstukken naar werkende oplossingen." Lead with digital identity (W3C CCG), energy transition (VCH CSRD/EUDR), and cross-departmental coordination (COVID-19). Show public sector context (Windesheim as government-funded knowledge institution, KBenP/NCOD as current applications).

G) POSTING LEGITIMACY

Assessment: High Confidence - Ongoing vacancy, stable boutique firm, direct email application.

MACHINE SUMMARY

```
num: 123
company: PBLQ
role: Adviseur digitale samenleving
score: 3.7
status: Evaluated
date: 2026-06-06
url: https://pblq.nl/adviseur/
