B) MATCH WITH CV

JD REQUIREMENT	CV EVIDENCE	STRENGTH
Digital transformation advisory	COTIT: operational restructure; Windesheim: digital infrastructure strategy; KBenP/NCOD as applied advisory roles	Strong
IT governance and regie	COTIT: SaaS cycle and workflow governance; Tonomy: organizational governance for foundation; Docker/CI/CD infrastructure ownership	Moderate-Strong
Independent advisory projects	Social Chicken portfolio: 6 years freelance PM + IT advisory; Aeres Lab Manager; KONGSBERG field deployments	Strong
"Practice-oriented and transparent guidance"	KONGSBERG: direct contract-based escalation; COVID-19: transparent multi-stakeholder reporting	Strong
Digital strategy	VCH open-source AI stack strategy; Tonomy: digital identity strategy; Viridis: EU innovation strategy	Strong
Client-facing at senior level	Beer Game multi-institutional; VCH consortium; Meerschap new client acquisition	Strong

Gaps: 1. **IT governance as primary discipline** - Christiaan's IT governance is part of broader work, not a dedicated discipline. Strict's "regie" focus is quite specific. Mitigation: demonstrate COTIT governance restructure and AI infrastructure ownership. 2. **Consultancy firm identity** - Christiaan's background is entrepreneurial lab builder, not traditional consultancy track. Mitigation: Strict is a smaller firm (not Big 4), more practice-oriented framing works. 3. **Vianen location** - From Baarn = ~25min, excellent.

C) LEVEL AND STRATEGY

Level: Senior consultant. €5-7k comp range indicates senior band. Christiaan's 10+ years track fits.

Sell: Lead with IT governance proof (COTIT restructure, Spark! Lab infrastructure ownership), digital transformation (Windesheim AI stack, VCH open-source strategy). Frame as practitioner-advisor who builds what others only recommend.

D) COMP AND DEMAND

ITEM	DATA
Offered	€5,000-€7,000/month + company car/NS card + training
Target	€65k-€90k/year = €5,417-€7,500/month
Verdict	Good - lower band slightly below target, upper band within target. Benefits add significant value.

E) CUSTOMIZATION PLAN

Summary: "Consultant voor digitale transformatie en IT-regie - brengt structuur, strategie en uitvoering samen." Lead with COTIT operational governance + Windesheim digital infrastructure strategy. Emphasize independent project delivery and client-facing senior advisory track record.

G) POSTING LEGITIMACY

Assessment: High Confidence - Confirmed live on Recruitee, also appears on consultancy.nl.
